Accident Insurance

Protection for accidental injuries off-the-job

Think About This

More than 85% of medically consulted injuries suffered by workers occurred off the job[†]

Every 10 minutes, 1,054 people suffer an injury severe enough to require a doctor or medical professional[†]

3.2 million people were treated in emergency departments for injuries involving sports and recreational equipment in 2021[†]

When an accidental injury requires medical attention, the costs can pile up quickly. Accident Insurance can help pick up where other insurance leaves off, providing a cash benefit to help cover expenses.

Here's How It Works

- Select a benefit and premium amount that meets your needs
- Premiums will be deducted each pay period
- If you have an accident and receive medical attention, file a claim to receive cash benefits*

Protecting Your Finances

You've worked hard for your savings – don't let an accident wipe them out.

- Protect your checking and savings
- Don't dip into your 401(k)

Meeting Your Needs

- Guaranteed Issue coverage, subject to exclusions and limitations*
- Coverage can include your dependents
- Premiums are affordable and can be conveniently payroll deducted
- Coverage may be continued; refer to your certificate for details
